PROJECTS

SPEND SMART | Tailwind CSS, Next JS, Shadcn/UI | Github | Live link
May, 2024

- A smart expense tracker where one can set monthly savings target based on salary & achieve this goal seamlessly with features like categorized daily transaction details, interactive data visualizations & insightful analytics. Integrated **Google Map** & **Google Places Autocomplete** to track the expense location, **Next Auth** for user authentication, **React hook** form & **Yup** for forms.

QUIZ COMBAT | Tailwind CSS, React, React Query | Github | Live link
April, 2024

- A website to solve different types of quiz with timer. Integrated **Trivia API** & used **React Query** for fetching live data.

CRYPTO SAGA | Tailwind CSS, React JS, React Query | Github | Live link
March 2024

- A **responsive** website for exploring real-time data on various cryptocurrencies. Users can delve into **live price** updates, **market cap**, **market rank**, **valuations**, **performance metrics**, other details presented in an intuitive **graphical interface**. I've integrated **Coingecko API** & used **React Query** for fetching live data.

WEATHER FORECASTER | Bootstrap,React JS | Github | Live link
October 2022

- A platform, built using **weather API**, to check weather forecasts incl. **humidity, wind speed, highest, lowest & real felt temperature, sunrise, sunset times, hourly forecast** & it's graphical representation.
